Testing & Layering Tips

- Skin chemistry rules: wear each scent **4–6 h** to see the dry-down.
- Try 2–3 at a time; reset nose with fresh air, not coffee beans.
- Layering: pair a **clean musk** with your sign's bolder pick for balance.

Occasion Picks (quick ideas)

Context	Great picks
Work/Day	citrus/green, soft florals, light woods
Date/Night	amber/floriantal, powdery iris, cozy gourmand
Weekend/Travel	aquatic/ozonic, tea notes, easy musk

Common Mistakes (and quick fixes)

- Picking purely by sign list. Fix: use zodiac as a ****starting theme****, then test on skin.
- Equating loudness with quality. Fix: judge comfort, balance, and context-fit.
- Over-spraying for close spaces. Fix: spray on clothes/hair lightly or use 1-2 pulse points.

Tiny Zodiac Capsule (3 bottles)

- Signature aligned with your sign's vibe.
- Neutral clean musk for layering and office.
- Seasonal switch: brighter summer (citrus/ozonic) + cozier winter (amber/woody).
